W. H. Eves was leading Newmarket canvassers with \$17,950. The Newmarket total was \$54,350 from 57 applications.

Lions Sponsor Air Cadet Squadron For Newmarket

TOLD TRAINING WILL BE OF VALUE TO BOYS IN WAR OR PEACE

An Air Cadet squadron will be sponsored in Newmarket by the Lions club, it was decided on Monday evening.

The club made this decision after hearing from Douglas Boyd, secretary of the Air Cadet League of Canada, Flying Officer N. F. Adams and Rev. Henry Cotton, Newmarket, former air force padre, who offered to give any help required in carrying on the squadron.

"A couple of evenings a week" in Air Cadet training will save a boy "six or eight months of training" if he should join the R.C.A.F., Flying Officer Adams said.

The R.C.A.F. has taken over training and administration of the Air Cadets," said F.O. Adams. "Boys go to camp for a period of ten days at an air station."

"I don't know any service club that does a better community job than this club, and yet I don't know anything more important than this that has ever come before you," said Rev. Henry Cotton, who served as a flier in the great war in a plane, he said, that did only 55 miles an hour.

"This war may collapse in six months or it may last six years," he said. "Our long-headed war leaders are planning for a long war."

"This Air Cadets training may save lives," said Mr. Cotton. "I tell boys who are going into the R.C.A.F. that they can't begin to study too soon or study too long. Their lives some day may depend on knowing the answer faster than the other fellow."

"Today it is boys," said Mr. Boyd. "Tomorrow it is men. We are asked by the department of national defence to increase our strength from 22,000 to 35,000 in the next few months."

The sponsoring organization would be asked to find a leader and accommodation, to enroll the boys and to finance the squadron.

"It is an opportunity to assist the boys in a training that will be valuable to them if they go into the air force," said Mr. Boyd. "It is up to them. If they go into the air force, it is of their own free will. Or, if they do not go into the air force, or they are not required, the training will be of value to them in civil aviation."

Mr. Boyd quoted a statement that there would be no difficulty in absorbing all present R.C.A.F. flying and ground personnel into civil aviation after the war, Canada would be the cross-roads of the world after the war, said Mr. Boyd.

Boys Scouts Commissioner Robt. Martin said that the Air Cadets would have the use of the Scout hall. H. E. Lamber, Lions club finance chairman, said that the club would be able to raise the necessary money to finance the squadron.

SAYS SYSTEM MUST PROVIDE WORK OR ELSE

Capitalism is necessary to democracy and should not be allowed to fail, Reeve F. G. Gardiner, K.C., of Forest Hill village, told the Newmarket Lions club at the King George hotel on Monday evening. President Frank Bowser was in the chair.

"Our sarcastic comments on Russia have changed to a complimentary nature," said Mr. Gardiner, who was introduced by Reeve F. G. Gardiner, Newmarket. "Russia started out as a social democracy," said Mr. Gardiner. "Do not let anybody sell you on the idea of socialism, because no country has been able to establish socialism. Countries which attempt socialism fall into a dictatorship."

"The Beveridge plan in Britain and the Marsh plan in Canada indicate that there are social changes going on."

"Our system is one of capitalistic democracy. There is nothing fundamentally wrong with that system, it seems to me. It has its faults. There has been too much of a concentration of wealth in some hands, but it would be a strange thing if industry and initiative were not rewarded."

"It is not entirely a capitalistic system. The C.N.R., Trans-Canada Airways, Ontario Hydro-Electric, Ontario Liquor control board — there have been inroads on the system but it is still fundamentally a capitalistic system."

"We haven't had this system always. It developed between the 15th and 18th centuries. Change can take place without doing damage provided it is not revolutionary change. The previous system was the feudal system. Under the feudal system land-owners were all-powerful. Under the capitalistic system wealthy financiers exercise control. It may be that the capitalistic system in that respect has not served the people in a broad way. In too many cases the financial control of the nation has crystallized in too few hands."

"The Russian revolution began with Kerenky, who believed that he had established a social democracy, but it lasted only a year. My point is that you can't have democracy except in a capitalistic state."

With the speed of modern communications, revolutionary social change could take place in three months or a year, Mr. Gardiner said.

In illustration of how times were changing, Mr. Gardiner compared first world war aviation with today's planes travelling 500 miles per hour at 35,000 feet, and today's restrictions on money-making with the great war easy money opportunities and "millionaires who fulfilled their obligations by buying five and a half percent tax-free bonds."

Orthodox bankers and financiers couldn't solve the mass unemployment problem which followed the 1929 debacle, said Mr. Gardiner. "Though New Dealers were despised by Republicans and capitalists in the U.S., by 1937 the New Deal had created a prosperity which was reflected in Canada."

"If we ever get into a period of mass unemployment again, we may well see the end of the capitalistic system, and with it democracy itself will expire."

Dr. W. C. Clark, deputy-minister of finance, Donald Gordon, chairman of the wartime prices and trade board, and Graham Towers, governor of the Bank of Canada, exercise more power over our economic lives than the prime minister, the government and parliament together, said Mr. Gardiner. "In the kindest way I say that Mr. Hiley is only a front for Dr. Clark," said Mr. Gardiner.

"If we are going back to free enterprise we must never again have mass unemployment. We must have a more power over our economic lives than the prime minister, the government and parliament together, said Mr. Gardiner. "I don't think that you can replace industry and thrift, but unless you can get a more equitable distribution, so that poverty and plenty no longer live side by side, there will be an end of the capitalistic system."

"We have heard a lot about reconstruction, but little has been done about it yet," said Mr. Gardiner. "We have to see that there are jobs for the soldiers when they return, public works of one kind or another."

"Our streamlined statisticians have accumulated experience that should enable them to tell the government when a condition of consequential unemployment is likely to become mass unemployment."

"If we can raise our budget from \$600,000,000 in 1939 to five and a half billions this year, we should be able to accumulate a fund probably in the neighborhood of a billion dollars. It should be collected now and held until the statisticians say a condition of mass unemployment is approaching."

"Ratepayers should not unduly criticize councillors if they accumulate a mill or two this year or next to provide work after the war."

"So far as I am concerned in my political life in Newmarket I will try to build up a fund," President Bowser, a member of the town council, told Mr. Gardiner, in expressing the club's appreciation to the speaker.

Warden J. S. Osborne, Reeve George Leary and ex-Warden Earl Toole expressed the thanks of visiting municipal men.

Children Too Will Have Victory Garden Contest

(By Rudy Renzler for Newmarket Horticultural Society)

Our prize list for this year's shows and contests will soon be out. We will have monthly exhibits and in addition a garden contest, both for new gardens and old established gardens.

This should prove an interesting feature, not counting the extra beauty put on our town's face.

The most important contest is probably the one for the children's Victory gardens. Each child interested will be furnished with vegetable seeds and at the end of the season the produce will be judged. This takes in vegetables only, but a Victory garden can have its beauty spots in the shape of a few bright annuals here and there. See your teacher for contest sheets.

Victory gardening is one big answer to the food problem today and from now on it is apt to supersede all other great Canadian outdoor sports and dinner-table topics. The fighting services must be fed three times a day and with more adequate means than they may have had as civilians, and they must have our best food.

Also export to the old country is to make great demands on our crops in the form of dehydrated vegetables. But we must all eat to live, so the answer is, victory gardening. Victory gardening is essential war work, and will keep our families well nourished.

Davis Workers Pledge \$20,750 To Victory Loan

An enjoyable euchre and dance sponsored by the factory relationship committee of the Davis Leather Co. was held in the town hall on Tuesday evening. There was progressive euchre downstairs in the market hall and dancing upstairs to the music of Everett Miller's orchestra, with Ross Black "calling off."

At the conclusion of the euchre the players and dancers all gathered in the upper hall for the awarding of prizes. Six \$10 war savings certificates, given by the Davis Leather Co., were awarded as follows: euchre, Mrs. Charles Harmon and Pte. John Campbell; euchre, ladies, Mrs. Merrill Ingledew and Mrs. Walter Collins; long hand, George Close. By draw a \$10 war savings certificate went to Miss Margaret Kaus.

Chairman of the relationship committee, Arthur D. Evans, introduced Capt. Aubrey Davis, who in turn introduced Rev. Henry Cotton, who spoke on behalf of the fourth Victory loan.

Mr. Cotton, having been a prisoner in Germany in the last war, told his hearers why all available help was needed to raise money to carry on the war to a successful conclusion and bring the boys back home.

Mr. Evans then explained that the object of the euchre and dance was to raise money to send comforts and cigarettes to the 140 or more employees of Davis Leather Co. in uniform, and also to stimulate interest in the Victory loan, since the employees have pledged themselves to raise \$20,750. He was able to announce that they hoped to clear over \$90 as a result of the evening's venture.

This was the first of a series they hoped to give, he said, the next to be early in the autumn. Dancing was then enjoyed until midnight.

Nearly 400 Under Arms From Town, Says Loan Speaker

Battalion Of One Thousand Men Attend Opening Of 4th Victory Loan Campaign In Newmarket

Over 1,000 strong, a battalion from Newmarket basic training centre, under the command of Major W. H. Swayze, acting second-in-command, swung down Main St. to Water St. to raise the Union Jack and open the fourth Victory Loan campaign in Newmarket and district, at noon on Monday.

Mayor Dr. L. W. Dales and Major N. M. Young, V.D., commanding officer, took a salute at the King George hotel. With Major Young were Major J. M. Esson and Capt. Eric Osborne.

In charge of the companies were Capt. Gordon Crutcher, Capt. R. C. Clarkson, Major J. E. Keenan and Capt. T. G. Blackstock.

A number of Newmarket officers and men were noted in the parade, including Lieut. John Macnab, Lieut. Wesley Niles, Lieut. Fred Gill, Pte. Roy Bennett and Pte. Dorothy Barber of the C.W.A.C.

A caravan of military vehicles followed the soldiers.

Mayor Dales presided at the dedication ceremony at the flagstaff. The Citizens' band provided music. Rev. A. B. Stein gave a prayer and Capt. the Rev. W. D. Muckle, R. C. chaplain at the military camp, asked a benediction.

"Nearly 400 have enlisted from your town," said Rev. Henry Cotton, stating that the number of Newmarket soldiers would be the equivalent of "at least a third" of the number of men on parade from the camp.

"Two hundred and fifty-five ex-students of Newmarket high school are on active service," said Mr. Cotton. "Six ex-students have died. Three are prisoners of war, and another is just reported missing. At least two prisoners are in chains."

"What can we do? We can loan money to the government. We can buy bonds. Are we going to take it easy while men fight, bleed and die?"

Asking the band for the "Maple Leaf," Dr. Dales said "that is popular and appropriate in the town of Newmarket," referring to the fact that it was first sung publicly at the laying of the cornerstone of the Congregational-Christian church by the Earl of Dufferin.

Dr. Dales announced at the beginning of the service that Holland Landing had already exceeded its \$12,000 objective, with 62 applications completed. "Our admiration goes to Garry Thompson," he said.

In concluding the service, Dr. Dales expressed appreciation to Mayor Young, and the officers and men of the camp for their presence.

"I would ask the citizens of Newmarket to give the canvassers a welcome, to sit down and talk over with them how money may be saved to put into Victory bonds," Dr. Dales said.

Newmarket's objective is \$325,000.

Sees Health Services As Among School Plan Assets

CHIEF INSPECTOR TELLS EAST GWILLIMBURY OF SCHOOL AREA

Township school area boards could arrange night classes for boys and girls up to 16 years of age, with particular study of agriculture and manual training, and qualify for provincial grants to carry on this work, Chief Inspector V. K. Greer enumerated as one of many advantages of the proposed township school areas in East Gwillimbury at a meeting at Sharon last week.

Reeve Stanley Osborne was chairman. In the course of the discussion which followed the address, Morton Toole, Mount Albert, suggested that township boards were less democratic than a larger number of local boards. He also said that farm values had dropped where schools had been closed.

Schools were not closed unless there were less than eight pupils, and the lowest attendance at any school in East Gwillimbury was 20, Dr. Greer and Inspector C. A. Lapp stated.

Mount Albert continuation school, which has outstanding debentures, would not be included in the scheme, said Dr. Greer. Mr. Lapp said that no other school in the township has outstanding debentures.

G. B. Thompson, Holland Landing, spoke on behalf of the Victory loan, and urged that residents should not think that the "inspector is trying to put something over. He is trying to help us."

Mrs. W. H. Wilmut said that the Red Cross was effectively organized in East Gwillimbury as a township unit.

Dental and medical inspection and disease immunization were cited by Dr. Greer as advantages of the scheme. The plan could also lead to employment of a public health nurse, he said.

Good As New Has New Meaning At Auctions

Used farm implements offered at auction sales are selling for 25 percent more than in 1941 and 1942, J. E. Nesbitt, implement dealer, told The Era and Express. Plows, tractors and binders, two or three years old, are selling for as much as new implements, he said. In one instance a tractor sold for \$110 more than it was purchased for new four years ago, in spite of the fact that it was somewhat damaged.

"Implements in first-class condition are selling on a par with new implements," Mr. Nesbitt said.

The high prices being paid, due to the restrictions on the sale of new implements, Mr. Nesbitt termed "ridiculous."

YOU SAVE MONEY, YOU SAVE LIVES

Holland Landing, with 62 applications totalling \$13,300, to exceed the village quota, returned to Victory loan headquarters early in the first day of the campaign, is a glowing example of what the people of North York intend to do with their increased objectives.

Garry Thompson, the canvasser, deserves the word of admiration expressed by Mayor Dr. L. W. Dales at the opening of the Newmarket campaign on Monday at noon.

It is said that the money raised in the Victory loan provides equipment which protects the lives of Newmarket soldiers, sailors and airmen. Better equipment turns the tide of battle, and gives the advantage to those who have it.

However, there is another sense in which Victory loan money saves the lives of Canadian service men. There are other nations in this war lacking Canada's high per capita industrialization, and they are anxious to receive equipment from Canada. Russia and China are doing more than their share probably, due to the fact that their countries have been invaded, but they are not complaining. The equipment which Canada is sending to these countries (we presume that China is sharing in Canada's billion dollar contribution this year to Britain and other allies) saves Chinese and Russian lives. It also saves

Canadian lives by enabling our allies to strike more effectively.

WHAT OTHERS THINK

WE DARE NOT DO LESS

(Midland-Penitanguishene Free Press Herald)

Salesmen of Victory bonds have a real job on their hands this time.

Canadians are being asked to invest \$1,100,000,000 in the victory of the United Nations over the Axis. It is a tremendous sum of money. On the average it means that every Canadian man, woman and child, must put in nearly \$100. Every family must do its part.

It is going to be done because it has to be done. Canada cannot afford to risk defeat in this war. Any sacrifice is better than that.

After all, buying a bond is not sacrifice at all, except in the sense that buying a bond may mean the postponement of a purchase of something long desired. The money one puts into bonds is an investment which pays good interest. One can always get his money back at any time by taking the bond to his banker if he finds himself in need of funds. There is no commodity of any kind quite so saleable as the bonds which are backed by the Canadian people and their government.

The war is nearing its crisis. Our Canadian airmen have been making terrific sacrifices that we who are at home may remain in enjoyment of freedom. Our sailors have been giving their lives at sea both in the navy and in the merchant marine service to protect the sea lanes. Our army will soon be the spearhead of the invasion of Europe.

Surely we are not going to let our brave men down. They are giving their all. All we are asked to do is lend our money. Shame to us if we hesitate.

The campaign starts next Monday, April 26. Midland has been asked to hit the highest target yet, \$535,000, and Penitanguishene's share has been boosted to \$200,000. Other communities in the north Simcoe area have nearly all had their quotas considerably increased. In no other way can the \$2,250,000 which has been assigned to the riding of east Simcoe be raised.

We can and we must do what is asked of us. We dare not do less.

our backs on the front—the front where our boys fight for their lives and ours. How many of us realize the necessity of sacrificing to support them in this struggle? How many of us are doing something about it by purchasing our full share of Victory bonds?

Let us work as a team—our soldiers fighting at the front, giving up their lives if need be—while we, who stay at home, loan our money to support them. We all know that in this team work they have the heavier load. So let us help as much as possible by backing the attack with all the money we can spare.

You will note that, in this letter as in the former, I have made no comment on the value of Victory bonds. Radio programs and newspaper articles cover this point in an excellent manner. I repeat that our bonds are as safe as Canada and that safety can be insured by an intensive effort on our part in buying to the limit the bonds offered in the fourth Victory loan.

Let us then invest in the future of Canada and back the attack. H. G. Barnes.

Mount Albert, April 19, 1943.

Of People And Things

VICTORY LOAN

By Isabel Inglis Colville

I sometimes think that most of us, in spite of all our indignant denials, are isolationists at heart. No matter what may be told us by way of breaking through our protective optimism, no matter how often the reality of our long coast lines is brought before us, no matter how it is dinned into our ears that long-range bombers are increasing their range, our sense of national security, so long unassailed, seems to be impervious to the possible threat of war finding us out, here at home.

We so easily forget that part—a very vivid, strong and youthful part of our national life is elsewhere. Like ostriches, we bury our heads in the sands of optimistic sophistry and draw the brains of our understanding into some remote unobtainable recess, as a turtle draws his head into shelter when danger threatens.

We work for the war, some of us furiously; we give, well, moderately, and we face reality even less so. I heard our prime minister tell how Canada has come to the forefront in war industry, in supplying the needs of our allies, in training men to fight our cause—the cause of humanity—in every sort of warfare, and on every front, and it seemed to me, as I listened, a sad commentary that he, or anyone else here or in the United States,

should have to urge us to contribute to the Victory loan, and I thought too, that the task of the canvassers is not all sweetness and light.

What gets me about people seeking money for a vital cause is that some people—not many I'm glad to say—treat the canvasser as if he or she were seeking money for their own aggrandizement. A pleasant reception means a whole lot to anyone who seeks to help any good cause. I know—I've been there!

This loan is so vitally important to us all, and above all, to our boys who, amid shot and shell, cold, intense heat, with the prospect of death or prison ever lurking in their inner consciousness, need every weapon, every comfort, everything that makes them realize that we at home, safe, are working with all our hearts and strength to bring them back victorious.

Victory bonds are not everything—work, prayers, letters and love are vital—BUT, and it is a great big but, they're absolutely necessary. 'Nough said!

Era and Express classifieds will turn into money for you something that somebody else would like to have.

TO THE EDITOR

Editor, The Era and Express: I can see no other way of getting around to the people of Newmarket to thank them each and every one for the splendid co-operation and cheerful view they have given and shown to the recruiting staff at Newmarket, while speaking at the undermentioned halls. I was given a hearty welcome and all the support one could possibly receive.

I wish to thank Mr. Williams of the United church, the committee of the Veterans' club, the manager of the Strand theatre, who has given us the use of the hall to speak at any time.

I also wish to thank the officers and non-commissioned officers at the camp for their wholehearted support, especially Major Young

CRITICAL PERIOD NEXT SIX MONTHS, IS BELIEF

To the residents of East Gwillimbury:

This is the second of two letters that I am writing to you, by request of Mr. Gary Thompson, in support of the fourth Victory loan. Our quota in East Gwillimbury is \$135,000.

It is generally acknowledged that the next six months will be a critical period in our dealings with the Axis forces in western Europe. The enemy knows, as well as we do, that an invasion is coming. There will likely be a continuation of heavy bombing attacks on industrial centres as well as sweeps over occupied territory to smash enemy railway lines and bridges. There may be feints to draw the enemy away from not only one but several points. Then the real point of points of attack may be made in force and pressed home.

We should not blind ourselves to the probability of heavy loss in both men and equipment before successful footholds are secured. It is no secret either that some of the ships in our convoys are being sunk. How vital it is therefore that we should work that much harder here in Canada to produce on our farms and in our industrial centres the food and machines of war to make up that loss both in convoy and in land warfare.

Is it not also important that we dig deeper in our pockets for the money necessary to make up this loss—to see that enough food and machines of war do get through so that our boys over there, impatiently waiting to go into action, may have sufficient food and weapons to meet the enemy on even terms or better?

A frontiersman, in the early days, had a curious habit of always sitting in the corner of a room where he could see all the doors and windows. When asked why he did so, he answered, "Sixteen years of warfare have taught me that, to survive, I must never turn my back on the front."

How many of us have this belief today—the idea that if we are to emerge from this conflict victorious we must never turn

TOWNSHIP OF EAST GWILLIMBURY VICTORY LOAN

To the citizens of the Township of East Gwillimbury, and particularly the western district of the township, including north Newmarket, which we represent: You are asked to subscribe to this Victory Loan, to support your own boys who are fighting our battles. Don't let them down.

From this district there are approximately 60 boys on the fighting front. They look to you to keep them supplied with the tools so that they can finish the job quickly and return home feeling that you have backed them up.

The township's objective for the last three loans was \$100,000 each. This time you are asked for \$135,000. This means we must do more. Give this to the boys.

Think it over and be ready to do all you can when the salesman calls so that he will not need to call back again. Meet your salesman with open arms.

Come on Ontario!

ONTARIO has done well in her contribution of manpower and resources to the prosecution of the war. Ontario must do still more in providing the sinews of war, by supporting the Fourth Victory Loan to the limit of the ability of every citizen. Our men in the fighting services will give all they have. Our people on the Home Front can do no less.

The Fourth Victory Loan is your opportunity to join with the Navy, the Army and Air Force in an all-out offensive. You cannot be there in person, but your dollars can be there for you, and will provide the materials and munitions so vital to the success of the armed forces.

The Government of Ontario is backing the Loan by the investment of \$5,000,000 in the new Victory Bonds. This is Ontario's official contribution towards strengthening the hands of the Dominion Government in its tremendous task of financing the total war effort that is needed. It is the tangible pledge of the Ontario Govern-

ment that it will co-operate to the fullest possible extent with the Dominion Government in the drive for final victory.

The action of the Government of Ontario is designed to give practical leadership to all the citizens of the Province, and should be an example and an inspiration to our people to accept this Fourth Victory Loan as a personal challenge to do their part to "Back the Attack" and hasten the day of Victory.

As the old Parish Rector said at the close of the remarkable film, "Mister Miniver", "This is the people's war! It is our war. We are the fighters. Fight it, then. Fight it with all that is in us."

We, the people of Ontario, must fight it with our dollars. Your purchases of Victory Bonds will help to send Ontario over the top again in support of our fighting men. They will do their part when the time of attack comes. We must do ours to-day.

Victory MUST BE PAID FOR

There's only one source for Canada's costs of war. That's you, Mr. Canadian—your savings, your income Canada can meet the bill only with what you and others are able to provide. For you are Canada.

While there is only one source, there are two channels to it—taxes and loans. To keep taxes below the breaking point, to finance the war on terms we all can bear, our self-interest demands that we make the 4th Victory Loan a success.

That's why you and all Canadians are now called upon to buy Victory Bonds. To reach this minimum objective—one billion, one hundred million dollars—everyone will have to buy to his or her utmost. So buy two ways this time—buy with all your savings and buy again by pledging part of your income on the installment plan over the next six months. The price of freedom must be met.

RATION NEWS

Meat Rationing by Chart

Meat Coupon Value Charts will shortly be published in the press and will be supplied to retail stores that sell meat. The chart will explain clearly the number of Coupons which must be surrendered for each cut of rationed meats. It is necessary to cut Canadian consumption of meat by about 15 percent. This will allow approximately two pounds per person per week, carcass weight. The brown Spare "A" Coupons in Ration Book 2 will be used for the meat ration.

Butter Coupons

Butter Coupon No. 7 which became good on April 24, does not expire until May 31. Coupon No. 8 becomes good on May 1; Coupon No. 9 on May 8. Both Coupons expire May 31.

Spare Sugar Coupon

Dates for marketing rhubarb vary in different parts of the country. But this does not prevent housewives from using their No. 1 Spare "B" (blue) Coupon now for the extra pound of sugar for this purpose. This Coupon expires May 31. Your dealer has no right to insist you buy rhubarb when you use this spare sugar Coupon.

Wartime Emergencies

Branches of the Ration Administration can supply all information necessary to anyone seeking rationed food supplies in

situations arising as wartime emergencies. Special arrangements have been made to meet such situations and anyone may obtain the necessary information and application forms at Ration Branches.

Small Arms Ammunition

The manufacture of cartridges for civilian requirements is being cut to about one-third of ordinary quantity. Fifty percent of the amount manufactured is being allocated to remote areas in the far North where people rely to a large extent on the hunting of game for food and for their livelihood. Any person may use whatever ammunition he has on hand but cannot buy ammunition without completing a certificate to establish that he is an authorized purchaser. The supply situation is such that small arms ammunition is not available for sporting purposes.

Barter or Exchange of Rationed Commodities

The Ration Orders explain how rationed commodities may be acquired. Consumers may only acquire rationed commodities by surrender of Coupons whether the goods are paid for in cash or whether they are exchanged for other goods. Any barter or exchange of rationed commodities is considered as a purchase. Dealers in rationed commodities are described in the Orders and they are the only persons from whom rationed commodities may be obtained.

SUTTON SCHOOL BAZAAR NETS COMFORTS FUND \$100

The bazaar held in the Sutton public school last Wednesday night, in aid of the Sutton Field Comforts club, netted \$100. It was proclaimed a huge success by all those who attended.

The school was attractively decorated in spring colors, with appropriate Easter drawings and cut-outs. The primary room displayed an interesting health project called "From morning till night." Colored posters showed the health rules which should be observed by a child during a normal day.

The children in Room 2 had been on an imaginary visit to Holland, and had constructed a sand table project which displayed a typical countryside scene in the Netherlands. The pupils in Room 3 displayed attractive social studies booklets containing stories, maps and pictures of the lives and explorations of the early explorers.

Each pupil in Room 4 displayed a series of papers showing a typical day's work. The blackboards in this room were cleverly decorated with an illustrated Easter poem.

The entrance class pupils displayed a variety of interesting individual projects. The manual training room was gaily decorated in red, white and blue. The large display of woodwork showed the keen interest shown in this work by both the boys and the girls.

The bazaar was held in Room 3. There was a great variety of things for sale, including quilts, kitchen accessories, infants' wear, woodwork and novelties. Josephine Battaglia, Diana Loneragan, Theresa Charpentier, Winona Biganoe, Dorothy Charpentier and Elaine Asquith acted as clerks, and Frances Loneragan as cashier. Tea was served in Room 4 by Margaret Harris, Joyce Hughes, Mary Thayer, Kathleen Cain, Irene Newton and Molly Shannon.

The success of the tea was largely due to the kind assistance of Mrs. Leon Smith, Mrs. Rory Egan and Miss Blanche Sedgewick. The ushers for the evening were Barbara Fountain, Helen Oliver, Donna Carmichael, Gerald Lake and John Howard. The following afternoon a short ceremony took place at the front of the school, at which the executive of the Sutton Field Comforts club, in the persons of Mrs. L. Tomlinson, president, Mrs. V. Charpentier, vice-president, and Mrs. Roy Thompson, secretary, were presented with the handsome proceeds of \$100 by Garnet Caster, principal of the public school.

MOVIES ON PARADE

Probably not since "Pastor Hall," in the days when the war was young, has the screen come out with as vindictive and outspoken a piece of Nazi denunciation as is to be found in the new R.K.O. release, "Hitler's Children," which comes to the Strand theatre next week.

It is the sort of thing that drives you out into the street looking for a bond salesman, if that is the only way in which you can help to slap down Schickelgruber and his ilk.

Gregor Ziemer's symposium, "Education for Death," dealing with the tragedy that is Hitlerian youth, serves as the background material for "Hitler's Children"—a provocative and terrifying document detailing the attempts of the would-be world conquerors to turn the human race into a horde of automatons, free of any emotion other than a wild-eyed devotion to the state.

Under this new order, the child belongs to the fatherland as soon as he is ready to be schooled; he is taught that there is no greater glory than to die for the fuhrer; it is drummed into his head that "home life" is a symbol and a superstition practised only by decadent democracies. The aged and the infirm are put out of the way. Women who are not considered fit to bear children are scientifically denied that privilege. And thus a race of "super-men" is born.

It is the tale of an American school teacher in Germany, and of his prize pupil, Anna Muller, who, though an American citizen, had been born in Germany of German parents and was consid-

By Order pursuant to National Selective Service Civilian Regulations, a change is now made in the issue of permits to seek employment.

After April 30, 1943, permits may be refused to any man born from 1902 to 1924, inclusive, who has reached 19, unless he presents satisfactory evidence of compliance with Mobilization Regulations, in one of the following forms:

(a) A certificate of discharge from His Majesty's Forces during this war; or (b) a rejection slip issued by the Army on application for enlistment; or (c) a certificate of medical examination from the Registrar of a Mobilization Board; or (d) a postponement order certificate from the Registrar of a Mobilization Board; or (e) if born from 1902 to 1916 inclusive, a statutory declaration on form available in employment office, that he is not a "single person" under Mobilization Regulations.

Documents in (a), (b) and (c) above need be presented only the first time a permit is sought after April 30, 1943, unless asked for by a Selective Service Officer. Documents in (c) and (d) above must be presented each time a permit is applied for.

A profession of faith

We have faith in Canada
We have faith in her past—faith that the courage of the pioneers and the spirit which achieved Confederation and linked a continent with the shining steel of railways have laid strong foundations for national greatness and unity.

We have faith in her present—* in the part she is playing to save the world from tyranny... in her young men and women who serve on land and sea and in the air... in her workers who labour for more than wages... in every man and woman and child striving for Victory.

We have faith in her future—* believing that she is destined to exert an ever-increasing influence in world affairs, and in the shaping of tomorrow, when many will turn to her with new hope.

We have faith in more than the statistics of Canada's bank clearings and her car-loadings, the vastness of

her untapped resources, or even the glorious war record of a people numbering less than twelve millions.

We have faith in a land we love, whose soul speaks to us from every free acre of Canadian soil... in the splendour of the Rockies at sunset, the blue mystery of a Laurentian dawn, the quiet of an Ontario woodlot, the far call of prairie horizons, the sound of surf on the Atlantic shore and the wash of the Pacific tides. It speaks to us from churchyards where Canadian dead lie beneath the tribute of English blossoms... from the poppyed fields of France and Flanders... from the winged and sea-faring and mechanized epics of a new war.

We have faith in her people... people, noted and obscure, with whom we daily rub shoulders... and by whose united effort, sacrifice and creative vigour the greater Canada of tomorrow will be built.

We have faith in Canada

CHRISTADELPHIANS

The Bible reveals that after "The Fall," God, in His kindness, conceived a plan of restoration which, without setting aside His just and necessary law of sin and death, should ultimately rescue the race from destruction and people this earth with happy, sinless immortals. He made precious promises to Adam, Abraham and David elaborating in greater detail through the prophets.

Three Years Will See
Town Position Bright

White Aurora town councillors find themselves hampered by lack of funds and a tax rate which is not sufficient to meet expenditures, citizens enjoy the advantage of a comparatively low rate, 40 mills, and at the same time may look forward to a steady improvement in the town's financial position.

If future councils adhere to a recommendation of this year's council, that the rate be kept at 40 mills until the town's bank indebtedness is paid off, the town will be in a remarkably fine position in ten years time.

This is apparent from a study of the town's debture debt as set out in the current auditors' report.

The town's present debture debt totals \$172,199, including the owners' share of local improve-

ments. By the end of 1945 five of the eight debtures will be paid off, and the town will be in a much improved position.

Annual instalments and maturity dates of the eight debtures are as follows: arena, \$1,445, 1945; sewage disposal plant, \$4,141, 1952; high school, \$7,293, 1955; St. Andrew's College water main, \$722, 1945.

Local improvements, street paving, \$7,802 (about half owners' share and half town's), 1944; Yonge St. resurfacing, \$1,862 (almost wholly a town liability), 1944; centre of Yonge St., \$310 (about three-quarters of a town liability), 1943; sewage disposal, \$4,504 (about one-fifth a town liability), 1963.

About \$1,600 is the proceeds of a mill on the tax rate, Clerk A. C. A. Willis said at a recent meeting.

Move Into New Offices
At "Machell's Corners"

Citizens will now pay taxes and water and light accounts, buy dog tags or make complaints about faulty sidewalks at the "Four Corners."

Without fanfare or ceremony Town Clerk A. C. A. Willis and Assistant Clerk Wm. Large transferred ledgers and records to the former Bank of Montreal building and opened for business at the new offices on Monday.

Citizens who visited the new municipal offices found no new furniture or equipment. Instead, it was evident that war-time economy had dictated the use of what the town already had.

Nevertheless, the new offices presented a smart appearance. Not only is there a private office for the clerk, and a vault which will provide ample storage space

for valuable town records, but there is a council chamber which will be the scene of a regular council meeting on Monday evening.

Chas. Copeland, the new electric light department foreman, with his wife and two children arrived in Aurora from Welland and took up residence in the apartment over the new municipal offices on Wednesday.

While a council resolution passed at the last meeting provided for amalgamation of the water and light departments, details have not yet been worked out, and no combined committee has as yet been named.

Chief Constable Fisher Dunham will take over the old clerk's office and the Red Cross emergency nursing reserve is using the old council chamber.

Exhibitor Of Fine Horses,
Preston Clarkson Dies

For many years one of King township's best farmers, George Preston Clarkson died last Thursday morning at his home in Queensville. He was 64 years old, and had not been in robust health.

Born on the farm of his father, Wm. Clarkson, third concession, King township, Mr. Clarkson lived all his life, until retirement, on the same farm. He and his father were horse enthusiasts and for many years used to show horses and win prizes at Aurora, Markham and district fairs.

Mr. Clarkson always kept good driving and work horses, and he took the same pride in his farm and all his farming operations that he took in his horses.

Regrets That Sir William Was Born On Wrong
Side Of Political Fence, Makes North York Tough

"You have in this riding one of the greatest men that this province ever reared in Sir William Mulock," R. H. Greer, K.C., Toronto, told the annual meeting of the North York Progressive Conservative Association in Newmarket town hall a week ago Saturday.

"As a result you always speak with a great deal of diffidence in this riding, even though you may regret that he was born on the other side of the political fence," said Mr. Greer. "Sir William's prestige has always been a handicap to electing a Conservative candidate."

It was therefore the greater achievement on the part of the late Col. T. H. Lennox that he was able to win and hold North York for the Conservatives, Mr. Greer said.

"Sir William once said that nothing had ever given him so much satisfaction as putting into effect penny postage throughout the empire," said Mr. Greer. "I wondered what he now feels when his grandson has put into effect postage of four cents."

Mitchell Hepburn is a great leader, Mr. Greer continued. "Probably never before has a man come out of the unknown and led a party to power and in ten years retired from it," he said. "So astute and popular was he that even our leader (Col. Geo. A. Drew, on the platform) regarded him as a friend."

"How bad and how low the party must have fallen when he who brought it up has disowned it," declared Mr. Greer. "We see a party torn apart, waiting to see who will be leader. The

party has never been so open to attack. It seems to me that it will be only a matter of a few months until the party is compelled to go to the country."

"Col. Drew is relatively a young man. We need young men. I wouldn't do as a leader. I belong to the old school of Conservatism. We have what we need in Col. Drew. He has courage, youth, the loyal background that we in this province are utterly and fully in sympathy with."

"Col. Drew was not elected leader at the Winnipeg convention because he did not want the leadership. He has determined to stay in Ontario until he has demonstrated his leadership and ability to Ontario and the rest of Canada."

"I feel that the future of this country is bound up with the prosperity of our farmers," Reeve J. D. Sibbald of Georgina township, told The Era and Express following his acceptance of the presidency of the North York Progressive Conservative Association.

"A prosperous farming community means busy and thriving towns and villages," he said. "To carry out the desirable features of a security plan like the Beveridge report requires this prosperity. The Progressive Conservative party under the leadership of the Hon. John Bracken and Col. George Drew has made the welfare of agriculture the leading plank of our platform."

"As a reeve and councillor of a rural township of 13 years I realize how badly agriculture needs government with its interests at heart."

MORE YOUNG MEN FROM ONTARIO HIGH SCHOOLS ARE NEEDED ON FARMS This Summer

FROM all over Ontario, young men in Ontario High Schools and Collegiates are applying to The Farm Cadet Brigade of the Ontario Farm Service Force—volunteering their summers to help produce essential foods for victory.

And it's a grand way to put on muscle and build up your weight. After a summer on the farm, you'll come back to school in the fall—hard as nails, brown as an Indian and rarin' to go.

You do all the regular work on the farm, and that's an education in itself, but what's more important is that you make one of the greatest contributions to the allied war effort that anyone can make by helping produce food for victory. For certainly, we can't fight if we don't eat.

If you are 15 years of age or older, register now with your High School or Collegiate Principal for work with the Farm Cadet Brigade of the Farm Service Force this summer. **DO IT NOW!**

**HOW TO COMBAT
Rheumatic Pains**
Rheumatic pains are often caused by uric
acid in the blood. The blood impurity
should be extracted by the kidneys. If kid-
neys fail, and excess uric acid remains, it
irritates the muscles and joints causing
excruciating pains. Treat rheumatic pains
by keeping your kidneys in good condition.

of theft against Pte. Rene Char-
ron, also of Camp Borden, jointly
charged with Pte. Mychu.
Constable John Mallabon of the
Toronto police said he had been
notified of the theft of the car on
April 10 and at 3 o'clock the fol-
lowing morning stopped the vehicle
at the corner of Spadina and
Bloor Sts. in Toronto. The officer
stated that Pte. Mychu had been
driving the car and Pte. Charron
and a young boy were riding in the
front seat. He said that the youth
told him that he had hitch-hiked
a ride and did not know that the
car was stolen.

Questioned by Crown Attorney
N. L. Mathews, K.C., Dr. Urquhart
testified that he had parked his
car in front of his office in Aurora
at about 4 p.m. on April 10 and
when he went to use it about 9.30
that evening it had disappeared.
He said that he notified Constables
Fisher Dunham and Alex. Fergu-
son and on the following morning
went to Toronto to identify the
car. He said that no damage had
been done to the vehicle other than
that a tire had been changed and
eight gallons of gasoline used up.
Pte. Charron, who pleaded not
guilty to the charge laid against
him, told Magistrate McIlveen that
he had had a weekend pass from
Camp Borden and had visited his
sister in Hamilton on April 10,
having hitch-hiked. He said that
he left Hamilton early Sunday
morning and while walking along
the highway Pte. Mychu drove
along in the car and picked
him up. He said that there was a
youth in the car at the time. He
denied knowing the other defend-
ant previously or being out with
him.

"You knew it was a doctor's
car?" questioned the crown.
"I did not look at the license,"
replied the defendant.

Questioned further by the crown,
Pte. Charron admitted that he
was in the same unit at Camp
Borden as the other defendant but
said that he was not acquainted
with the latter. He said that he
had been at camp for about a
month and a half whereas Pte.
Mychu had been there about a
week and a half.

He admitted that he had been in
trouble on two previous occasions.
Summing up the case against
Pte. Charron Mr. Mathews said
that it was a question of whether
his worship believed the defend-
ant's story or disbelieved it.
"I'll give you the benefit of the
doubt this time," the magistrate
told him.

Eight cases of failing to have
efficient brakes on their cars
when County Constable Ronald
Watt tested them in East Gwillim-
bury on April 9, were presented in
police court. Seven of the defend-
ants pleaded guilty and were given
fines of \$10 and costs of \$1 or ten
days each. Those fined were: John
F. Black, Camp Borden, Fred W.
Heacock, Bogartown, Francis
Robertson, King City, David W.
Evans, Bogartown, George L.
Hill, Nobleton, Robert Malcolm,

Queensville, and Mrs. Ethel Mc-
Clure, Keswick.

Philip Murphy, Queensville,
charged with having inefficient
brakes on his car, pleaded not
guilty to the charge. He told his
worship that he had had his car
serviced and the brakes reined
two weeks previous and, as far as
he knew at the time he was
stopped by Constable Watt, they
were in good condition. He said
that he had used the car very
little since having it fixed. When
he brought it back to the service
station, after the police officer
tested it, the mechanic found that
a pin which held the rod control-
ling the brakes had broken. He
said that the car has since been
fixed.

Mr. Alexander, mechanic at the
garage where the defendant had
had his car looked over, corrobor-
ated the defendant's story.

Constable Watt told his worship
that when he tested the brakes
the hand-brake stopped the car in
50 feet and the emergency brake
in 70 feet.

Magistrate McIlveen remanded
Mr. Murphy for one week and
asked him to have Constable Watt
test the car in the meantime.

"A man is worthy of his hire,"
Magistrate McIlveen told Sydney
Homewood, King, when awarding
him wages amounting to \$26.69.
Mr. Homewood had charged James
Bulger, King, with failing to pay
him wages amounting to \$53.18.

"You should have given him a
month's notice before leaving,"
stated his worship. "You gave
him only ten days. You were
hired by the month. I am letting
you have half your claim. My
advice to both of you is that when
you make a contract get it in
writing."

His worship advised Mr. Bulger
that he would have to pay costs.

In his testimony, Mr. Homewood
said that he had been hired by a
Dr. Tomlin of Toronto to work on
his farm in King, which was being
managed by the defendant. He
said that Mr. Bulger had promised
to pay him at the rate of \$55 a
month and that he began to work
for him on Dec. 15. At the end
of the first month he gave a
month's notice but the defendant
persuaded him to remain another
month, he said. Ten days before
the end of the third month he
again gave notice but left two days
before the end of the month be-
cause he could not stand the abuse
given by the defendant. He said
that he had not been paid for the
last month that he had worked on
the farm and estimated the
amount owing him to be \$53.18.

Mr. Bulger said that he had
hired Mr. Homewood at \$55 a
month, provided he remain for the
year, but that if he stayed for the
winter months only he was to get
\$40 a month. He said that the
claimant had left him at a bad
time of the year, with 14 cows to
milk and feed to be brought in. He
said that he had a number of sick
sheep and that it was the lambing
season.

In this time of national emergency our country is making
demands of its citizens such as we have never known before.
And rightly, for we have never been faced with a crisis such as
this war has brought to our doorsteps.

ways, and we, at the Bank of Montreal, take particular pride in
the splendid way you have bought Victory Bonds. We take pride,
too, in the record of service of this Bank to its customers and to
Canada. For a period of over 125 years — which has embraced the
troubled times of eight wars — our Bank has continued on its
steady course, always confident that Canada would win through
to a future that would far outshine its record of the past. This
faith has always been justified . . . it is still as strong as ever.

Today, in this time of national crisis, we appeal to you to
support the nation's war effort by drawing on your savings and
earnings to the limit of your capacity to buy Victory Bonds. We
shall be glad to place them in safekeeping for you at a very small

We must face these facts in '43

THE COST OF WINNING THE WAR is something we can neither escape nor avoid. Victory has to be paid for... let us face the price squarely. Canada **MUST** have Five Billion, Five Hundred Million Dollars for this fourth year of war. Where is this huge sum to come from?

Taxes will yield part of it, but when all taxes are paid we shall still need Two Billion, Seven Hundred and Forty-Eight Millions. And, as a first step towards meeting that need, the minimum cash objective of the Fourth Victory Loan will be One Billion, One Hundred Million Dollars.

True, leading financial and industrial concerns will take up a large portion of this sum. But the amount left to be met by individual purchasers will be very greatly increased. Two things will be necessary:

(1) The amount purchased by each individual will need to be **much greater** than in the last Victory Loan, and...

(2) There must be participation by **many more** Canadians in every walk of life. In order to reach even our **minimum objective**, **MORE** people must buy **MORE** bonds.

I realize that it will call for a supreme effort on the part of every Canadian to meet this demand, that the Fourth Victory Loan will be the greatest financial challenge we have ever faced. Yet we dare not falter now. Unswervingly and relentlessly, we must work and save together. For the results of this Fourth Victory Loan will be the inescapable measure of our determination, our unity of purpose, to achieve complete and overwhelming victory.

I know the strength, the discipline, and the united purpose of my fellow-Canadians. I am confident that we can, and will, meet this challenge.
